<http://www.siip.city.sendai.jp/netu/english.html>

**Language:** English and Japanese (with English Translation)

**Expected Number of participants:** 100 nurses including nursing student and other health professionals.

### **Background**

Disaster has been changing from the event extraordinary, to the everyday events. It is essential to strengthen the resilience of the people and society, and prepared for the disaster against unexpected events than ever before. It is also essential to argue what disaster nursing challenge for future beyond the boundary of society and nationality to protect the health and safety of individuals, families and communities during pre and post disaster, as well as consider the next action for human security. The World Society of Disaster Nursing and International Council of Nurses conduct activities with the following purposes:

1. World Health Organization(WHO) initiatives by Dr. Dr Nevio Zagaria

2. International Council of Nurses (ICN) Initiatives by Ms. Lesley Bell
3. Japan Society of Disaster Nursing (JSDN) initiatives by Prof. Hiroko Minami
4. World Society of Disaster Nursing (WSDN) initiatives by Prof. Aiko Yamamoto

**Sponsors:** Japan Society of Disaster Nursing, International Council of Nurses and the  
World Society of Disaster Nursing
